Programme Overview

External Environment

Understand the place of general practices in the NHS structure including PCNs exploring the contractual basis of general practice including GMS and PMS contracts. Look at different commissioners including CCG, NHS and others. How a partner can obtain support and collaborate with others.

Business

Understand the role of the Partner in the structure of the business, both on a longer-term basis and a more day-to-day basis. Gaining an understanding of the role of the Partner as an employer, including exposure to Human Resources and employment law.

HR

Differentiate the role of GPs as doctors and as entrepreneurs. Gaining an understanding of employment status and IR35. Advance knowledge of the CQC and their expectations of a “well lead” business. Gaining further understanding of the role of GPs leading on Practice HR/workforce. Building knowledge on the role of the Practice Manager. Developing knowledge of key aspects of employment law.

Finance

Advance your knowledge of financial streams through general practice and Primary Care gaining an understanding of key components of practice finance accounts. Understand the financial pressures for GP Partners.

Property

Understand different models of property ownership, the process of buying into property and how property is funded. Explore the risks associated with property ownership and how these can be managed and mitigated.

Leadership

Gain an appreciation of the role of the Partner as a manager; Develop your own understanding of the concept of leadership; Considering the role of Partners in leadership within Primary care.

Future Strategic Direction and Support Systems

Introduction of the plans for the future NHS including 10-year view, GPFV, STP/JUCD. Explore how practices can change and respond to strategic challenges. Discuss how practices work at scale. Why practices merge and how it's done.
